

WORKSPACE SOLUTIONS

- Create an efficient and ergonomic workstation with our most popular products: Cable Management Systems, SpaceBeams, CPU Holders, Laptop Arms, Monitor Arms, LED Task Lighting, Keyboard Mechanisms, Pelican Drawers, Scissor Lifts.

Wave Light

An ergonomic LED task light solution with dimming and ambient light detection capabilities.

SpaceArm

An ergonomic and space saving support for single or multiple monitor applications. Also can function as an ergonomic laptop solution.

SpaceBeam

Increases vertical space and functional efficiencies. Helps position task related work materials within easy reach and view by mounting the SpaceBeam onto panels of workstations, freestanding caseworks or millwork applications.

Pelican Drawer

A unique and discreet storage solution that provides unrestricted movement under work surfaces. It can be used for hanging files, handbag storage, cash boxes, laptops, ipads, personal items and more.

Elevator CPU Holder

A sustainable design solution; Elevator's fabric mesh sling enables flexibility and adjustments for a wide range of CPU sizes as your technology needs change.

Cable Spine

A dynamic cable management system encapsulates wires/cables in a flexible and pliable plastic, which suspends freely for stationary applications or moves with your work surface movements.

ILS - Sit and Stand

ILS converts any work surface in a panel based or DIRT wall workstation to a height adjustable solution by simply replacing cantilever brackets with ILS legs and supportive hardware.
